

## WHAT IS COINPOKER?

Developed by an ambitious team of poker lovers, CoinPoker is a revolutionary platform that uses blockchain technology to address key issues in the poker industry.

TRANSPARENT | SECURE | COMMUNITY CENTRIC 

### 01 Crypto-Powered Payments

All deposits, withdrawals, and bets on CoinPoker are powered by the cryptocurrency token CHP (Chips). This makes payments simple, quick, and 100% transparent.

### 02 Fully Decentralized RNG COMING SOON

CoinPoker will be introducing a fully decentralized RNG this year. The feature will be the first of its kind in the poker industry, allowing players to view their impact on card shuffling.

### 03 Universal Accessibility

Players from all over the world are able to access our desktop client, and our launch of an Android app has already resulted in thousands of players hitting the tables while on the go. CoinPoker for iOS is ready, and will be released to the public soon.

### 04 Huge Promos for Players

Since launching, CoinPoker players were given the opportunity to win a Tesla, collect over 400ETH in various tournament series like ETH Madness, participate in a 10,000,000 CHP Added Crypto Series of Poker (CSOP), and win millions of CHP in daily freerolls and freebuys.
